ABOUT US

Ikomo Energy Services Limited was incorporated in Nigeria with Corporate Affairs Commission with Registration No. RC: 1493674.

The company is incorporated to carry out general construction, maintenance and supply services to various clients in oil & gas, petrochemical and power generation industries in Nigeria.

In the engineering sector, the company is built to provide high quality and excellent instrumentation, calibration, electrical, heating ventilation and air conditioning system (HVAC), mechanical services and supply of related tools and materials.

Ikomo Energy Services Limited is engaged in general supply of related engineering materials and tools to Oil & Gas Exploration Companies across Nigeria.

We are passionately moved to promote and sustain local content expertise in Nigeria engineering field and create job opportunities for professionals and Youths to curb youth restiveness.

OUR VISION

Providing high quality, excellent construction, maintenance and general supply services for Oil & Gas Exploration Companies.

OUR MISSION

Ikomo Energy Services Limited is driven by a passion to provide first class and excellent services to promote Local and International Standards Compliance.

QUALITY POLICY STATEMENT

Ikomo Energy Services Limited Technical activities has a well-articulated quality control policy and manual that is focused on total management system.

- It is the policy of Ikomo Energy Services Limited to provide an effective service which conforms to client's specification and in line with regulation requirements.
- Our quality objective is to ensure operation of a quality system which shall demonstrate the delivery of its services in conformance to relevant standards.
- Ensure high degree of operational efficiency at minimal cost by applying preventive actions.
- Mobilize appropriate equipment, qualified and experienced personnel to ensure preventive actions.

SAFETY POLICY

Ikomo Energy Services Limited is directly involved in all safety plans and implementations. The company is built to plan, arrange and carry out her jobs in such manners to:

- Reduce to the barest minimum or exterminate the negative impact of our operations on the environment.
- Ensure the safety of our workers, equipment, materials, subcontractors, clients and third parties.
- Ensure that task is carried out in a safe manner-from inception to the completion. Therefore, if any job is unsafe, such shall not be permitted to be carried out in order to protect and promote our health and safety ethics in business.

In order to achieve our safety goals, Ikomo Energy Services Limited shall ensure that:

- Safety briefings are timely held to educate all workers on the adequate precautionary and safety measures to be complied with.
- Job-related Personal Protective Equipment (PPE) are provided and ensured its usage by the workers.
- Regular safety training: on-the-job and off-the-job safety trainings are finance by the company for her staff.
- Safety performance are adequately documented and audited: daily, weekly, monthly, quarterly, routinely and annually to measure the company's safety targets against its performance.
- Ikomo Energy Services Limited shall ensure that good equipment are provided for effective and efficient job execution, use competent operators and comply with her scheduled equipment maintenance policy.
- Adequate emergency response procedures are put in place for prompt communication, intervention and control in case of any emergency/disruption in our operations.
- Monthly, quarterly and annual safety incentives/awards are implemented in Ikomo Energy Services Limited to encourage and promote workers safety performance in all our operations.

Services

INSTRUMENTATION

- Instrumentation installation.
- Calibration of process instruments, both online & offline instruments.
- Calibration and Maintenance of Metering skid & LACT unit.
- Calibration of field instruments both Valves & Tanks.
- Servicing and Overhauling of instruments valves
- Fire and Gas system
- Building of Automation panels
- Inspection & Certification

Servicing & Calibration of Control Valves

Calibration of Field Instrument

Instrument Calibration Laboratory

ELECTRICAL

- Low Voltage, Medium Voltage & High Voltage.
- Cable pulling, Arrangement, Tagging, Glanding & Termination
- Power Distribution systems, Power Generation systems & Lighting controls
- Switchgears, Transformers & Electric Motor etc.
- Transformer oil treatments & Dielectric Test
- HVAC Installation & Commissioning
- Inspection & Certification

Lagos: 08063335261, 08124511592

Services

MECHANICAL

- Valve management (installation, dismantle, torqueing, alignment, over hauling, stroking and calibration)
- Hydro-test.
- Leak test
- Welding and Fabrication.
- Installation of mechanical equipment and Structural Steel Works
- NDT
- Inspection & certification

Welding & Fabrication

Installation of Flanges

PRODUCTION, METERING & CUSTODY TRANSFER

Maintenance & Calibration of LACT Unit

To Regularly Prove:

- Test Separators meters
- LACT Unit / Meter Station
- Quantity crude deliveries to refineries and export terminals

To Calibrate:

- Storage tanks & its instruments
- Fiscal instruments (temperatures, pressure, differential & gravity gauges)

To Check:

- Instrument accuracy
- Accuracy Linearity
- Meter and Gauge Integrity.

Services

MANPOWER SUPPLY

- Recruitment and supply of Technical Personnel to Oil & Gas Companies.
- Undertake the management of Contract Staff in Corporate Organization.
- Short-listing, dispatching of invitation letters and posting of candidates for interviews.

PROCUREMENT / LEASING

- Import and supply of oil tools, equipment and technical materials
- Leasing of Air compressors (350, 400, 600, 900, 1050 & 1,600 CFM)
- Pumps, pressurized habitat and Welding machine

Leasing of 900 cfm Air Compressor & Others
